Of course, you would start with quality paper, but let's talk about the tools you need to get you rolling and enjoying your craft.

1. Paper cutters – now there is a variety of possibilities here, but my favorites are: the [Paper Snips Scissors \(103579\)](#) and the [Paper Trimmer \(152392\)](#)
2. Adhesives – here we have a variety as well with [Multipurpose Liquid Glue](#), [Stampin' Seal](#) and [Stampin' Seal+](#), [Tear and Tape](#), and [Stampin' Dimensionals](#). [Mini Glue Dots](#) often come in handy as well.
3. Measurement tools – [Mr. Pen Steel Rulers, 6 inch and 12 inch Metal Rulers, Pack of 2](#) - These I got from Amazon and love having the two sizes right at hand.
4. Specialty tools for paper – of course you might want to pick and choose here, building up your tool collection as you go. Two of my favorites are the [Bone Folder](#) and the [Take Your Pick](#) tool. Depending on your specific needs, you may want to consider the [Simply Scored Scoring Tool](#), particularly if you do a lot of 3D crafting.
5. Die cutting machine – this isn't as much a starter item as the others, but you'll quickly find yourself wanting one on hand. Stampin' Up! has 2 sizes; the full sized [Stampin' Cut & Emboss Machine](#) and the [Mini Stampin' Cut and Emboss Machine](#).

Most of us start out with just one or two of these already at hand, but the ones listed here are my favorites which were added to my tool chest as quickly as I could. I hope you find this list to be helpful!
